

Welcome Parents and Students,

My name is Adriana Esquivel and I will be teaching Art for grades 9-12. I graduated the University of Texas at Arlington with a Bachelor of Arts in Drawing and a minor in Psychology. Needless to say, I am interested in the many wonderful creations our brains hold! My goal is to inspire my students to create what their minds see and explore together the many eras and periods of art history with a growing artist's eye.

My rules are simple: come to class with a ready disposition and a willingness to learn. I cannot teach if you are unwilling to learn. On the other hand, if you come to class ready and willing, the sky is the limit! Don't limit yourself with a bad attitude. All in-class assignments and homework will be turned in at the green file holder on the teacher's desk, and all graded work will be handed back to students at the beginning of class as soon as all present students are seated. If absent, you may find any graded and/ or missed work in the purple file holder on the teacher's desk.

I look forward to exploring our imagination this school year! If you have any questions or concerns, please feel free to call (xxx) xxx-xxxx where we can set up a parent teacher conference if needed, or email me at [adriana.esquivel@school.isd.edu](mailto:adriana.esquivel@school.isd.edu).

Best,

Adriana Esquivel

Art Teacher grades 9-12
